Personal data processed

General network traffic data (like IP address or referrer) is logged and is used in anonymized usage statistics.

Purpose of the processing of personal data

General network traffic data is logged to generate anonymised statistics about the use of our resources.

Third parties to whom personal data is disclosed

No personal data will be disclosed to third parties.

How to access, rectify and delete the personal data

If you need to access, rectify and/or delete any personal data we store about you or which you provided to us please contact us.

Data retention

Personal data is deleted on request of the user or if the user hasn't used the service for three years. Personal data of users who have deposited resources in the repository are only deleted on request of the user.

Data Protection Code of Conduct

User's personal data will be protected according to the [Code of Conduct for Service Providers](#), a common standard for the research and higher education sector to protect user privacy.
